Specimen Set 1: Islam Answer . One Muslim understanding of Jihad is that everyone's struggles are equal (Greater Jihad). The personal struggle of every individual Muslim, no matter what, is equal in the eyes of Allah. If a Muslim struggles to undertake the Hajj, this is equal to a Muslim who cannot fast. The Greater Jihad is a personal struggle.

This volume in the Studying World Religions series is an essential guide to the study of the Islamic faith. Clearly structured to cover all the major areas of study, including historical foundations, scripture, society, thought, ethics, rituals, spirituality and aesthetics, this is the ideal study aid for those approaching Islam for the first time. Rather than attempting to cover all the material, the critical and methodological issues that students need to grasp in the study of Islam - and religion in general - are drawn out, and the major contemporary debates explored. With helpful suggestions for further study, pointing students towards material such as primary sources (scriptures), films and novels and including ideas for teaching, discussion topics and exercises, Studying Islam is the perfect companion for the fledgling student of Islam.

A comprehensive and accessible textbook which explores the traditions and beliefs of the world's living religions – the fully updated and revised new edition The World Religions Reader is an inclusive, student-friendly examination of the history, teaching, practices, and appeal of the world's major religions. Covering both the fundamentals and complexities of each religious tradition, this popular textbook brings together significant texts from scriptures and scholars, as well as writings from philosophers and other significant thinkers throughout history. Students are provided with an introduction and overview of the tradition, taken through its primary texts, and presented with a text which seeks to persuade the student of the tradition's merits. This new edition has been thoroughly updated to be even more accessible for students new to interreligious engagement and to reflect current trends and developments in religions worldwide. Every chapter opens with a substantial overview which orients the new student and then flows into a carefully chosen set of texts - a regular textbook is now combined with a Reader. New content examines areas such as the Rastafarian tradition, while revised chapters cover secular humanism and indigenous and emerging religious traditions. The methodology of the book focuses on an empathetic approach – representing each tradition from the perspective of a conventional adherent – enabling students to develop understanding of each tradition and appreciate similarities and differences in their most typical forms. Invites students to study each tradition from the perspective of a follower, aiming to understand why the tradition is popular and powerful Explores representative passages, world-views, rituals and institutions, ethical expressions and modern outlooks for each religion Features discussions of interfaith perspectives on the role of women in religious traditions and the impact of world events and politics on interfaith communication Encourages students to consider questions of truth, the relation of religion and society, and the changing nature of a tradition in the modern world Includes a complete set of pedagogical tools and instructor resources, including end-of-chapter fact sheets, topic summaries, key term sections, and essay and discussion questions The World Religions Reader, Fourth Edition is an ideal textbook for undergraduate and graduate courses in religion, especially for liberal arts and non-affiliated colleges, as well as general readers wishing to increase their knowledge of the world's religious traditions.

Understanding World Religions introduces students to major worldviews—including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist—through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition—experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict. Understanding World Religions remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.
