Why is it so hard to talk about sex and sexuality? In this crisp and compelling book, Amin Ghaziani provides a pithy introduction to the field of sexuality studies through a distinctively cultural lens. Rather than focusing on sex acts, which make us feel flustered and blind us to a bigger picture, Ghaziani crafts a conversation about sex cultures that zooms in on the diverse contexts that give meaning to our sexual pursuits and practices. Unlike sex, which is a biological expression, the word 'sexuality' highlights how the materiality of the body acquires cultural meaning as it encounters other bodies, institutions, regulations, symbols, societal norms, values, and worldviews. Think of it this way: sex + culture = sexuality. Sex Cultures offers an introduction to sexuality unlike any other. Its case-study and debate-driven approach, animated by examples from across the globe and across disciplines, upends stubborn assumptions that pit sex against society. The elegance of the arguments makes this book a pleasurable read for beginners and experts alike.

This posthumous work by Jacques Arends offers new insights into the emergence of the creole languages of Suriname including Sranantongo or Suriname Plantation Creole, Ndyuka, and Saramaccan, and the sociohistorical context in which they developed. Drawing on a wealth of sources including little known historical texts, the author points out the relevance of European settlements prior to colonization by the English in 1651 and concludes that the formation of the Surinamese creoles goes back further than generally assumed. He provides an all-encompassing sociolinguistic overview of the colony up to the mid-19th century and shows how ethnicity, language attitude, religion and location had an effect on which languages were spoken by whom. The author discusses creole data gleaned from the earliest sources and interprets the attested variation. The book is completed by annotated textual data, both oral and written and representing different genres and stages of the Surinamese creoles. It will be of interest to linguists, historians, anthropologists, literary scholars and anyone interested in Suriname.

The second issue in a new series, Global Financial Development Report 2014 takes a step back and re-examines financial inclusion from the perspective of new global datasets and new evidence. It builds on a critical mass of new research and operational work produced by World Bank Group staff as well as outside researchers and contributors.

Inland fisheries are important sources of ecosystem services contributing to human diet, health, well-being and economies. The evaluation of the importance and value of inland fisheries is one of the biggest challenges for its development. To develop the inland fisheries data collection, we reviewed the current status of data collection in European countries and provided five detailed country examples. The specific country examples give detailed description of data collection, focusing on: 1) country-wide postal survey (Finland) and 2) web-based survey and development of citizen science approach (Denmark). Example 3) from Ireland focuses on recreational salmonid fishing and conservation limits. There are two examples based on logbook returns: 4) one strict system, which is considered to work well (Czech Republic) and 5) one less controlled system, currently not producing reliable results, and under development (Croatia). Case studies were provided in each country example. Finally, the authors discuss the important aspects of inland fisheries data collection and review the methods to provide recommendations.

Jack and Liam, fed up with kiss-my-arse bosses and nose-to-nipple commuters, quit their jobs and move to a small town in Turkey. Join the culture-curious gay couple on their bumpy rite of passage in a Muslim country. Meet the oddballs, VOMITs, wetpats, emigreys, semigreys, debauched waiters and middle England miseries. When bigotry and ignorance emerge from the crude underbelly of Turkey's expat life, Jack and Liam waver. Determined to stay the course, the happy hedonistas hitch up their skirts, move to the heart of liberal Bodrum and fall in love with their intoxicating foster land. Enter Jack's irreverent words for a right royal dose of misery and joy, bigotry and enlightenment, betrayal and loyalty, friendship, love, earthquakes, birth, adoption and a senseless murder. Perking the Pansies will make you laugh out loud one minute and sob into your crumpled tissue the next. "Scott pulls no punches. A good read and hopefully the first of many by new boy on the block." Jane Akatay, journalist "An insightful tale of life abroad - with a twist - from the pen of a serial people watcher. Expat Jack lays his characters bare along with his heart and soul." Kym Cifci. On the Ege Magazine, Otheegee.com "Jack and Liam bring a certain je ne sais quoi to the souks and heap a plate of dry British wit to their Ottoman misadventures," Charles Ayres, author, Impossibly Glamorous Impossiblyglamorous.com ...". hilarious, saucy, witty, heartwarming and incredibly moving, Perking the Pansies is chock full of odd characters and odder situations. Jack Scott has a way with words and proves that it is the relationships we surround ourselves with that matter most," Linda A Janssens, Writer and Co-Author, TurningsPoints, Adventresinexpatland.com

Achieving the Sustainable Development Goals through Finance, Technology and Law Reform Achieving the SDGs requires a fundamental rethink from businesses and governments across the globe. To make the ambitious goals a reality, trillions of dollars need to be harnessed to mobilise finance and accelerate progress towards the SDGs. Bringing together leaders from the World Bank, the financial and business sectors, the startup community and academia, this important, topically relevant volume explains what the SDGs are, how they came about and how they can be accelerated. Real-world case studies and authoritative insights address how to direct investment of existing financial resources and re-align the global financial system to reflect the SDGs. In depth chapters discuss how financial institutions, such as UBS Wealth Management, Manulife Asset Management and Moody's Rating Agency are supporting the SDGs. The opportunities arising from Blockchain, Big Data, Digital Identity and cutting-edge FinTech and RegTech applications are explored, whilst the relevance of sustainable and transparent global supply chains is underscored. Significant attention is paid to law reform which can accelerate progress of the SDGs through SME Financing, Crowdfunding, Peer-to-Peer Lending and tax restructuring. To achieve the 'World We Want', much needs to be done. The recommendations contained within this book are critical for supporting a fundamental shift in thinking from business and governments around the world, and for building a more just and prosperous future for all.

Thomas Knights' internationally acclaimed Red Hot art project is back with a totally new look and new models. Hold tight, it's Red Hot II: a large-scale photography book with new red-hot models, both female and male. The collaboration between British photographer Thomas Knights and British designer Elliott James Frieze is characterized by its midnight blue material background and embossed silver writing, making it a desirable collector's item.
